Release Notes for Pisces version 3.18

Release Date: **March 29, 2012**

Welcome to the latest release of Pisces, version 3.18.

Pisces is a web-enabled .NET software application used by BPA and its Fish & Wildlife program participants to track and manage projects throughout the Columbia River Basin. Pisces allows contractors and BPA project managers to collaborate on project definition and ongoing project management over the internet.

To find out more about what Pisces is and what you can do with it, start here:
http://www.efw.bpa.gov/contractors/usingpisces.aspx

Changes in this release include:

Statement of Work

- Several work element definitions and requirements have been revised for work starting in fiscal year 2013.
- You can now select what to copy when copying a SOW, work element(s) or milestones. It's also possible to select multiple items (Ctrl-click or Shift-click) for the purpose of copying or deleting items.

Report Center

- Pisces reports that were previously hosted on Report Center are now hosted via Taurus at http://www.cbfish.org/Report.mvc/InteractiveMapsAndGraphics

Search Publications

- "Search Publications" can now be invoked from Pisces Reports menu. The feature is now hosted in Taurus http://www.cbfish.org/Report.mvc/SearchPublications/SearchByTextAndAuthorAndDate

Environmental Compliance

- BPA EC Leads can now cancel an incomplete EC milestone. The cancellation is depicted as a bold circle in the SOW tab.
- EC tab: ESA options have been revised.

Some Other Changes Include

- RM&E Metadata: Pisces should no longer fail when monitoringmethods.org web site is not in service. Number of Sites field is now enabled only for WE 157.
- SOW Submission: When the contractor submits the SOW, the Received Date is automatically recorded in the Workflow tab.
- My Stuff: Both the on-screen and the PDF report now show correct document approval status.
- Several other bug fixes and minor enhancements

The next release has been scheduled for June 28th, 2012, tentatively.
